

CELEBRATING 88 YEARS OF POWERING OUR COMMUNITIES

Southwest Rural Electric is celebrating 88 years of powering our communities and invites its members to participate. Join us for our 88th annual meeting Tuesday, October 7, 4–6 p.m. at one of two convenient drive-thru locations: Western Oklahoma State College in Altus, Oklahoma, or Orbison Park in Vernon, Texas. Members can register, vote and snag some awesome SWRE prizes from the comfort of their vehicles.

IMPORTANT! WHAT TO BRING:

Active members should have received a specially-marked envelope containing the official meeting notice in late September. Notices were mailed to the address we have on file. Please bring the official meeting notice and a proper government ID to register at the meeting.

Reminder: Only authorized account holders (or properly designated representatives with notarized authorization) may register and vote. This ensures we meet our co-op bylaws.

WHAT ARE WE VOTING ON?

Members will vote to approve the 2024 annual meeting minutes. The minutes and a ballot will be on your official notice, which members will hand in at registration.

WHAT TO EXPECT AT THE DRIVE-THRU:

Co-op employees will direct traffic. Members will hand their meeting notice to an employee, who will scan the QR code for quick registration. Members will cast their ballots to complete their participation.

BIGGER ENERGY CREDITS & PRIZES

This year, we've upped the registration energy credit to \$40—applied directly to members' next bill. Plus, every registered membership gets a free SWRE hat, with a limit of one credit and one hat per membership.

Registered members will be entered to win the following prizes:

- A \$2,000 cash prize
- A \$1,000 cash prize
- Two energy credits worth \$750 each
- A \$500 energy credit
- Twenty-one additional energy credits worth \$50 each
- Various prizes donated by co-op vendors

Join us live on Facebook at 10 a.m. October 8 to find out if you're a lucky winner. Winners will be contacted after the prize drawing.

HOW YOUR ELECTRIC CO-OP IS GOVERNED

Southwest Rural Electric Association, Inc. functions under a unique business model. Like all co-ops, we are memberowned, governed by specific rules and principles, and committed to the Seven Cooperative Principles.

As a cooperative, SWRE is a not-for-profit organization owned by those it serves—that's you! Your membership means you are vested in the organization, and the money you pay for electrical service goes into the operation, maintenance and improvement of the electrical distribution infrastructure. It's been that way since 1937, as laid out in our articles of incorporation. Additionally, SWRE follows the rules set forth in our bylaws, which provide a detailed description of how the cooperative functions and is structured.

Overseeing the operations of the cooperative is a board of directors. The board is made up of members who live in our community and use the electricity that we provide. The membership (that's you again!) elects them to their positions. Board members meet regularly to help ensure that the co-op meets the needs of its members, and they partake in training opportunities to stay up to date on co-op operations and industry information. During the annual meeting, the board meets publicly with members to make important decisions.

Also guiding the smooth operation of the cooperative are a general manager and a staff of skilled professionals including member services personnel, dispatchers, lineworkers, engineers, technicians and more.

Influencing it all are the Seven Cooperative Principles, which guide cooperative businesses all over the world. Although not legally binding, they set the tone for how co-ops do business and set them apart from other businesses. The principles are Voluntary and Open Membership; Democratic Member Control; Members' Economic Participation; Autonomy and Independence; Education, Training and Information; Cooperation Among Cooperatives; and Concern for Community.

It takes the entire team, board of directors and members to keep SWRE operating the way it was intended and providing safe and reliable electricity in our communities.
